

**\*\*\* SOLD \*\*\* Calder Boats - 57 Widebeam**

**£ 64,995**

## Description

\*\*\*SOLD\*\*\* 2007 Calder Marine 60' x 10' widebeam liveaboard. Powered by a 50hp Beta Marine inboard diesel engine, this spacious vessel is priced accordingly due to some works that are required to be carried out. Constructed in typical steel boat fashion of 10-6-4 thicknesses, she is currently located on the Stainforth and Keadby Canal adjacent to Staniland Marina in Thorne. She has recently had a survey carried out for a previous purchaser who decided not to carry out the necessary works required to the vessel. Main works that are required include some welding work on the outside under the waterline, replacement of the gas system and replacement of the rudder stock tube which runs through the fuel tank. Additional minor cosmetic work may be also required. This is an ideal project for someone who has the capability of carrying out the required repairs and will get a well priced boat!
